Recipient: Kingston Council, Councillor Munir Ravalia, Councillor Liz Green, Councillor Kim Bailey, Zac Goldsmith MP, Roy Arora, Ed Davey MP

Letter: Greetings,

Make the streets safe for our children.

With four school sites, three of which are primary schools, within the groves area of New Malden, we are very concerned about the increasing prevalence of driving on pavements. On a nearly daily basis local parents are witnessing cars driving up onto the pavement and putting lives at risk, especially for small children often out of site for these drivers. We have raised this with our local councillors and the leader of the council and asked them to act swiftly to address this dangerous driving and to re-consider a one way system. We have had little progress and can't wait any longer. The suggested bollards will not work (these are regularly taken out by drivers) and behaviour changing approaches are also flawed as drivers in rush hour and school pick up time cause these issues and the risks and potential effect of pavement driving are too high.

The Groves area (Lime Grove, Poplar Grove, Chestnut Grove and surround streets) has very narrow roads and the junctions are often small without great visibility. Parking is difficult and taking out spaces to create passing zones will exacerbate this issue. A one-way system has been piloted in Mount Road and part of Chestnut and has been successful in reducing dangerous driving and blockages.

We would like the Council to reconsider a one way system to protect all pedestrians, as well as cyclists, from increasing traffic, congestion, and dangerous driving. It has been difficult to show the councillors how important this issue is to local parents and residents as public meetings are hard to get large numbers of people to attend. We have started this petition in order to evidence the concern.

We want to let local councillors, MPs and Kingston Council know that:

There is an issue with dangerous driving in the groves area of New Malden

That we want them to look at the options to address this immediately

To reconsider a one-way system

To have a well advertised consultation on a one-way system that takes into account both local residents in a wider area as well as those using the streets e.g. parents at the local schools

Signatures
